REMARKS

An error, noticed after filing of the previous Amendment on November 2, 2004, is corrected in claim 41.

Claims 62-71 are added. These claims recite the features of a track having the same physical variations that are read by first and second heads or first and second transfer elements. Kosuge (U.S. 5,353,176), relied on in the Office Action of July 2, 2004, does not include such a feature because the heads are at different transverse positions relative to the track.

Entry of this Supplemental Amendment is in order. Favorable reconsideration and allowance of the application are respectfully requested.

To the extent necessary during prosecution, Applicants hereby request any required extension of time not otherwise requested and hereby authorize the Commissioner to charge any needed fees not otherwise paid, including application processing, extension, and extra claims fees, to Deposit Account No. 08-2025.

Respectfully submitted,  
Nigel Kevin RUSHTON et al.
